Turf Equipment Leasing

While owning turf equipment makes sense in some situations, today's marketplace makes leasing the preferred choice. Through the design of a creative lease plan, courses can enjoy more control over their cash flow with reduced maintenance costs and less downtime achieved by acquiring newer equipment sooner.

Golf Car Leasing

Maxium provides flexible leases to meet all your golf car needs. From tailoring a golf car lease to maximize the financial performance of your golf car fleet to adding a few extra cars, Maxium will customize a lease solution to reflect the usage specific to your course requirements.

Golf Course Improvement Loans

In addition to traditional equipment leasing, Maxium also offers leases for non-core assets such as above ground irrigation components and pump stations, kitchen and restaurant equipment, general office equipment and much more.

Golf Course Mortgages

Maxium's desire to provide mortgage financing to satisfy the needs of a select number of golf courses brings the additional benefits of industry competitive terms, timely in-house credit adjudication, flexible repayment schedules and our extensive experience in the golf industry.
